1. About this guide

Invoice Tracker shows where every supplier invoice is, from upload to payment. This guide is for head-office (HQ) users and Admins who track invoices across **all channels**: Msetu / SRM and PO Portal.

> **Note:** What you see in the menu depends on your role (Invoice Team L1, L2, L3 or Admin). If a menu item in this guide is missing for you, your role does not include it. Ask an Admin if you need it.

2. Signing in

2.1 First-time setup

An Admin creates your account. You then receive a **Welcome** email that lists your role, your portal and your Inquiry Desk access.

1. Open the email and click **Set Your Password**. The link works for a limited time only.
2. Choose a password of at least 8 characters, confirm it and save.
3. Sign in as described below.

2.2 Sign in

1. Open the Invoice Tracker sign-in page.
2. Click **Internal Team**.
3. In **Portal / Team**, select **All channels (HQ)**.
4. Enter your **Email ID** and **Password**.
5. Keep **Remember me on this device** ticked only on your own computer.
6. Click **Continue**. Your dashboard opens.

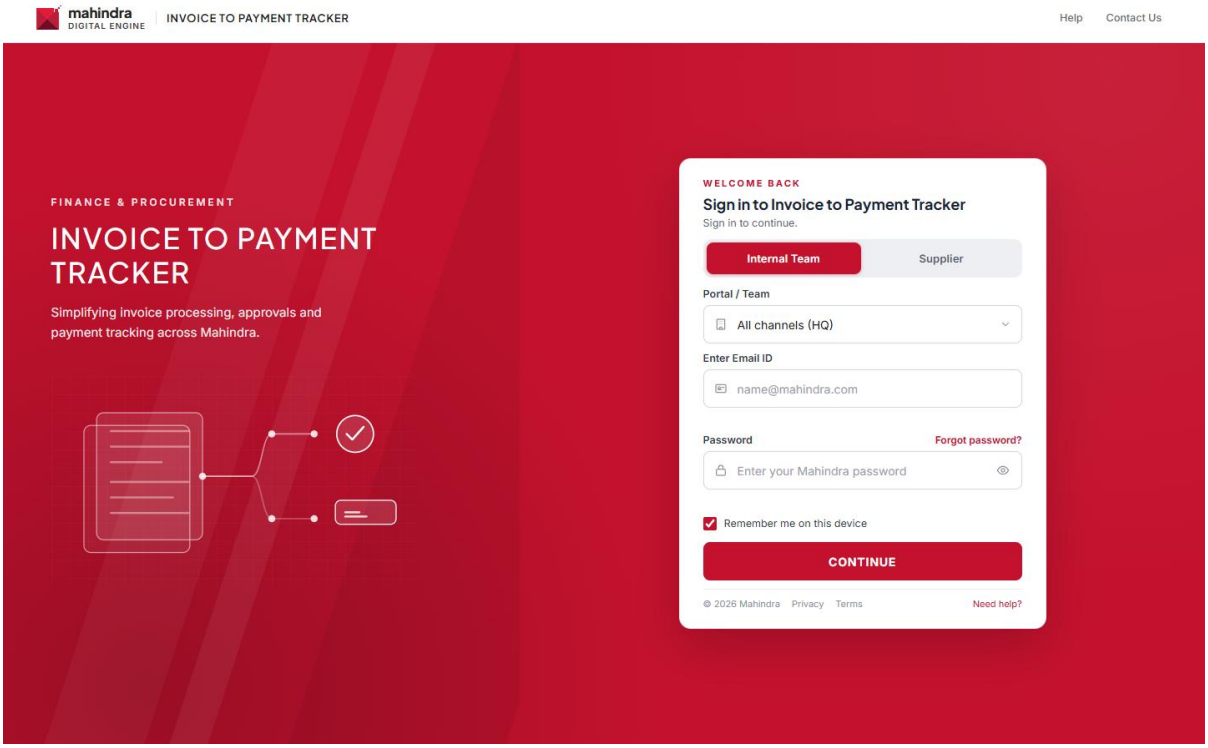

Figure 1: Sign-in page: Internal Team

> **Note:** Admins can sign in to any portal. Other users can only open the portal assigned to them.

2.3 Forgot password

1. On the sign-in page click **Forgot password?**
2. Enter your **Sign-in email** and click **Send reset email**.
3. Open the email and click the link.
4. Enter a new password (at least 8 characters) twice and save. Then sign in again.

3. Finding your way around

Area	What it does
Left menu	Invoice Tracking, Search Invoice(s), Processing Channels (Msetu / SRM, PO Portal), Supplier Visibility, Inquiry Desk, Notifications, then Reports & admin: Vendor Status Reports, Logs / History, Settings, Profile, Logout.
FY filter (top bar)	Choose the financial year, or **All Years**. All pages use this choice.
Channel (top bar)	Choose **All Channels** or one channel.
Vendor Code (top bar)	Show only one supplier's invoices. Type to search the list.
Bell icon	Your latest notifications. The red number shows unread ones.
☰ (menu) icon	Collapse or expand the left menu.
Back link (under the top bar)	Returns to the page you came from.

4. Dashboard (Invoice Tracking)

The dashboard is the first page after sign-in. It gives a quick picture of all invoices for the selected year, channel and vendor code.

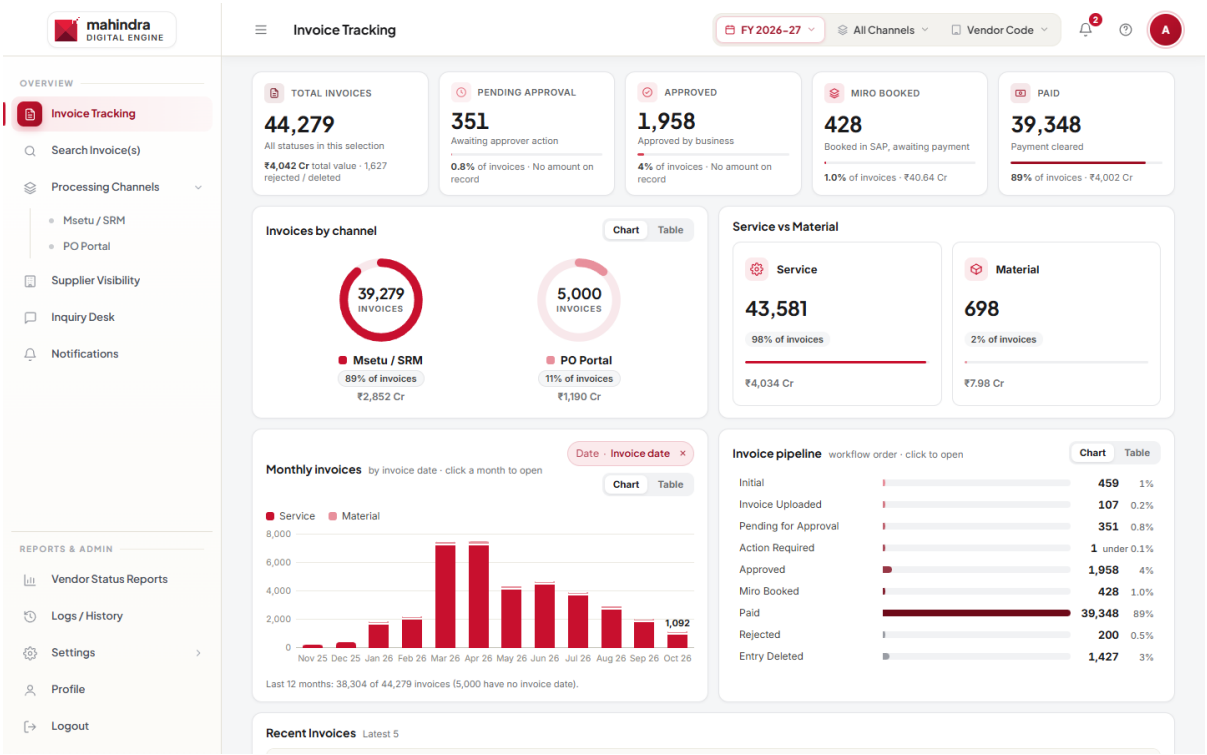

Figure 2: Invoice Tracking dashboard

4.1 Summary cards

Card	Meaning
Total Invoices	All invoices in your selection, with total value and the number rejected or deleted.
Pending Approval	Waiting for the approver to act.
Approved	Approved by the business.
Miro Booked	Booked in SAP, waiting for payment.
Paid	Payment cleared.

Each card also shows its share of all invoices (for example "0.8% of invoices") and the amount, when an amount is on record.

4.2 Charts

- **Invoices by channel**: invoice count and value per channel. Switch between **Chart** and **Table**.
- **Service vs Material**: how many invoices are for services and how many for material.
- **Monthly invoices**: invoices per month for the last 12 months. Use the **Date** chip to change which date is counted (for example invoice date or payment due date). Click a month to open those invoices.
- **Invoice pipeline**: how many invoices sit at each status, in workflow order. Click a status to open those invoices.
- **Recent Invoices**: the latest 5 invoices.

> **Tip:** Clicking a card, month or status opens Search Invoice(s) with that filter. This needs the "Search invoices" permission.

5. Search and track an invoice

1. Click **Search Invoice(s)** in the left menu.
2. Type in the search box: invoice number, PO number, status, date or amount. To search several fields at once, separate them with commas in this order: **invoice, PO, item, UTR**.
3. Narrow the list with the chips: **Status**, **Product**, **Date** (Invoice, Upload, Approval, MIRO booking, Payment Due or UTR clearing date) and a date range.
4. Click an **invoice number** (or the eye icon) to open its details.
5. Click **Clear** to remove all filters, or **All dates** to remove the date range.

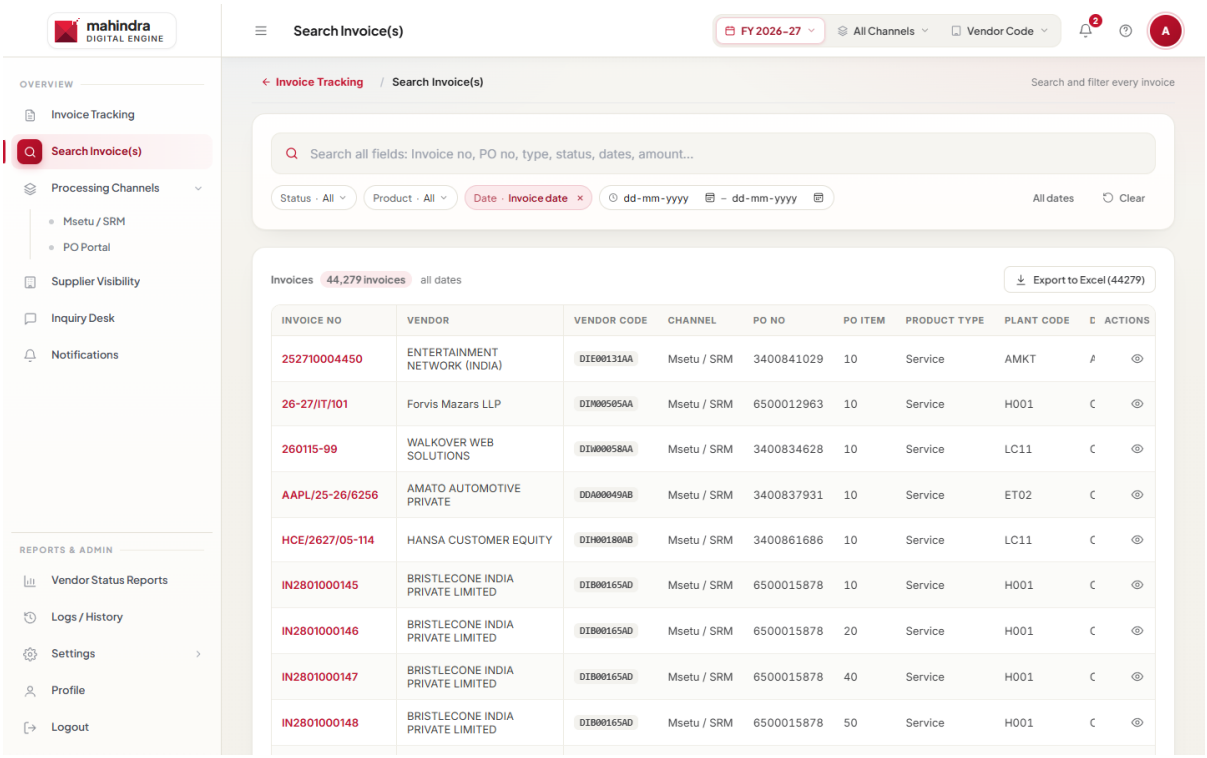

Figure 3: Search Invoice(s)

5.1 Invoice details

The details window shows:

- **Status and channel**, with a short "Why this channel" explanation.
- **Currently Handled By**: the approver and accounts person (or "Not assigned").
- **Invoice Progress**: Initial → Invoice Uploaded → Pending for Approval → Approved → Miro Booked → Paid. The current step says "In progress".
- **Status & payment**: current status and UTR number. "Not yet visible" means the payment reference has not arrived yet.
- **Dates**: Invoice Date, Upload Date, Payment Due Date and Payment Date.

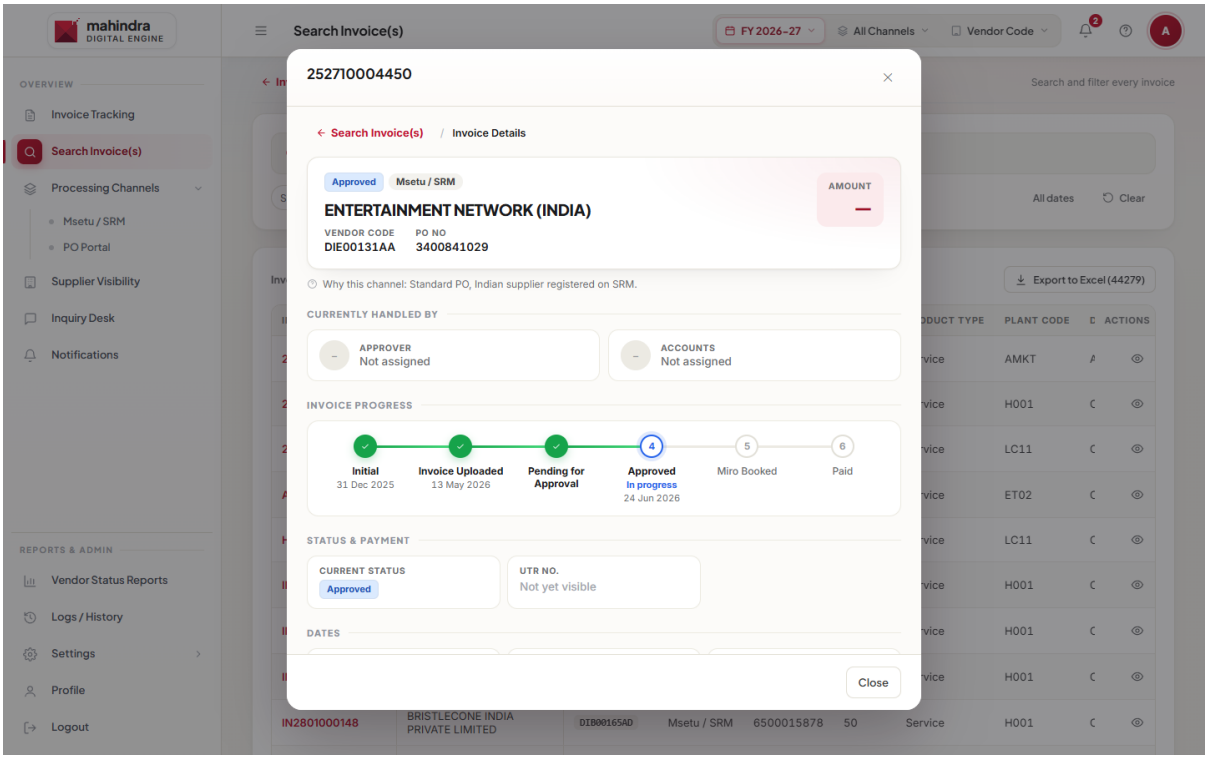

Figure 4: Invoice details

5.2 Export to Excel

Click **Export to Excel (N)** above the table to download the invoices that match your filters. Tick rows first to export only those (**Export Selected to Excel**). The button only appears if your role has the "Export data" permission.

6. Processing Channels

Under **Processing Channels** open **Msetu / SRM** or **PO Portal** to see that channel's own invoice register (with channel-specific columns and filters) and its **History** tab. These pages work the same way as described in the PO Portal and Msetu / SRM manuals.

7. Supplier Visibility

1. Click **Supplier Visibility**.
2. Pick a supplier by **Supplier Name**, **PAN** or **Vendor Code**.
3. See the supplier's **Total Invoices**, **Paid**, **Open Queries** and **Total Invoice Amount**, and their invoice list as the supplier sees it.
4. Use the status and date filters. The **Filtered Invoice Amount** shows the total of the filtered list.

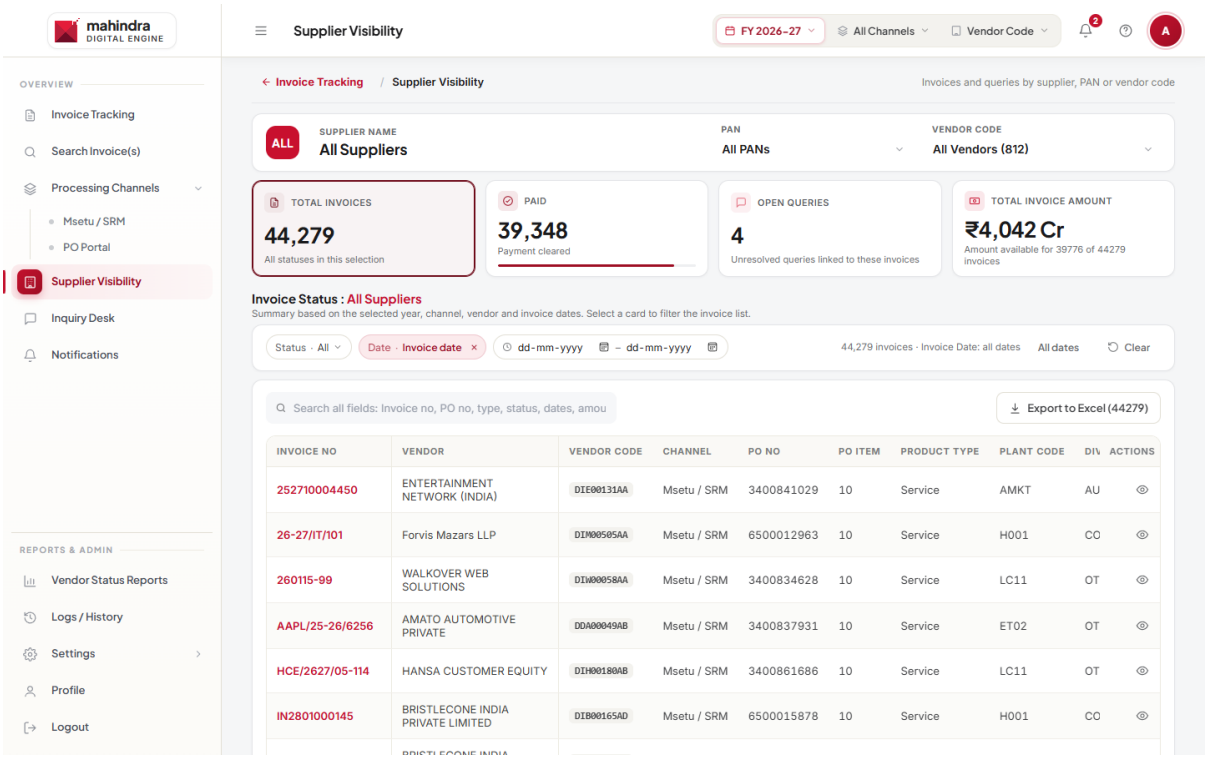

Figure 5: Supplier Visibility

8. Vendor Status Reports

Shows completed invoices (payment confirmed, UTR available). Cards: **Completed Invoices**, **Suppliers Covered**, **Paid Value**, **Top Supplier**. Search the list, tick rows if needed and click **Export to Excel**.

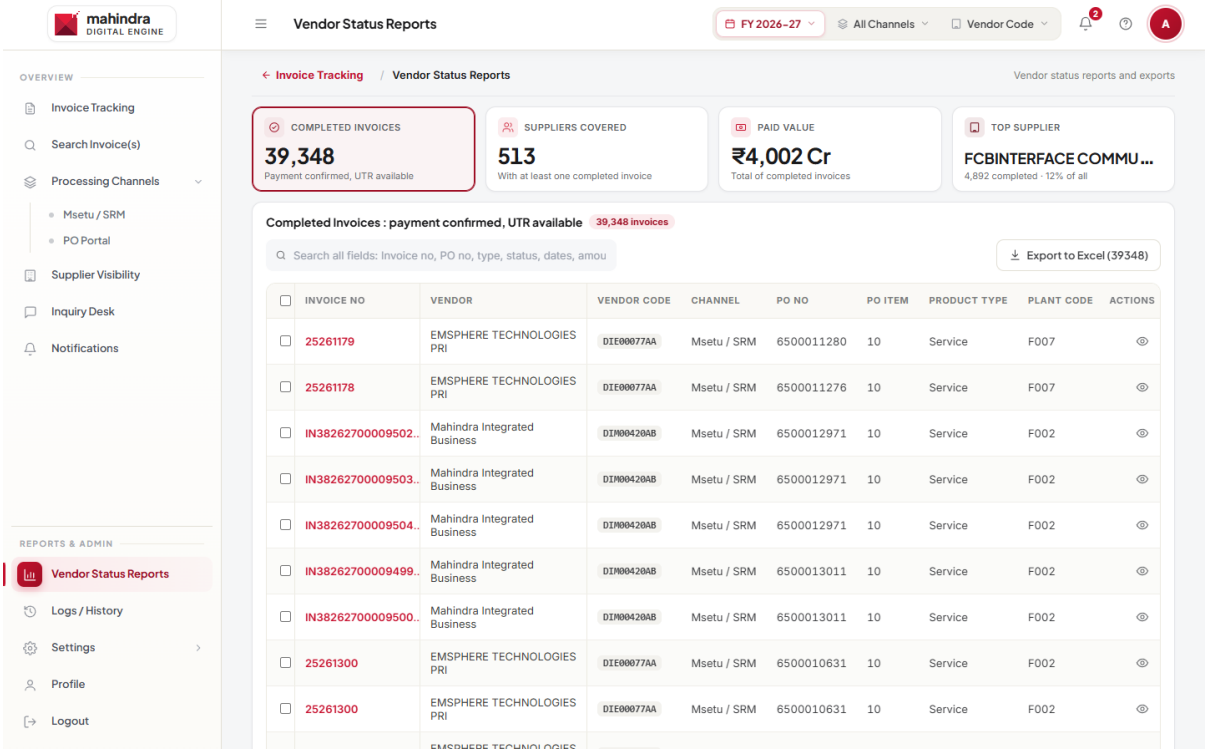

Figure 6: Vendor Status Reports

9. Logs / History

A combined history of invoice, payment and query events. Search by invoice, vendor, PO or details; filter by type (Invoice, Payment, Query) and date; click **Export (N)** to download. Columns: Date, Invoice No, Vendor Code, PO No, Type, Event, Performed By, Details.

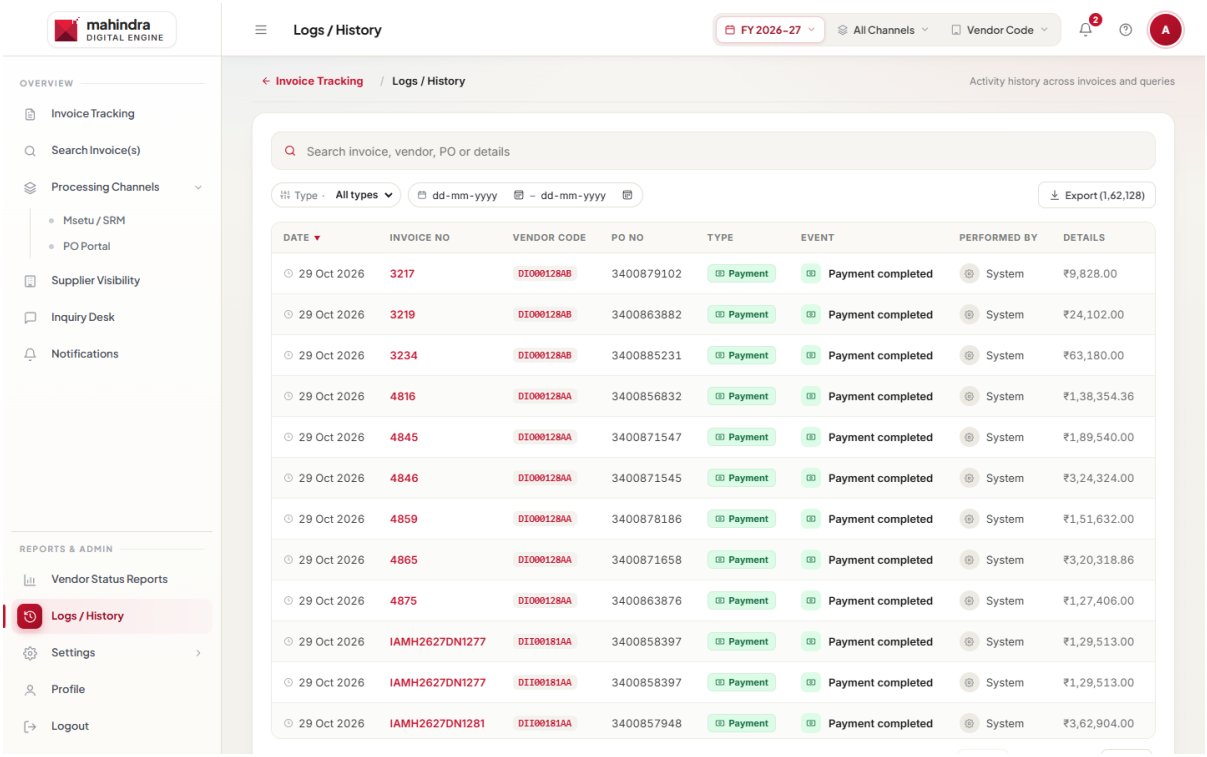

Figure 7: Logs / History

10. Inquiry Desk (supplier queries)

Suppliers raise queries about their invoices. They come to the Inquiry Desk of the invoice's channel. You only see this menu if you have an Inquiry Desk role: Admin, Channel Lead or Assignee.

1. Click **Inquiry Desk**. The cards show **Open**, **In Progress**, **SLA Breached** and **Resolved / Closed** queries. Click a card to filter.
2. Search by query number, invoice, vendor, subject or owner. Filter with **All categories**. Switch between **List** and **Board** view.
3. Click a query to open it.
4. Write in the reply box. Choose **Public reply** (the supplier sees it) or **Internal note** (only the Mahindra team sees it). Attach a file if needed and click **Send**.
5. Use **Assign** to give the query to a team member.
6. When the issue is solved, click **Resolve** and add a resolution note. The supplier can then close it or reopen it.

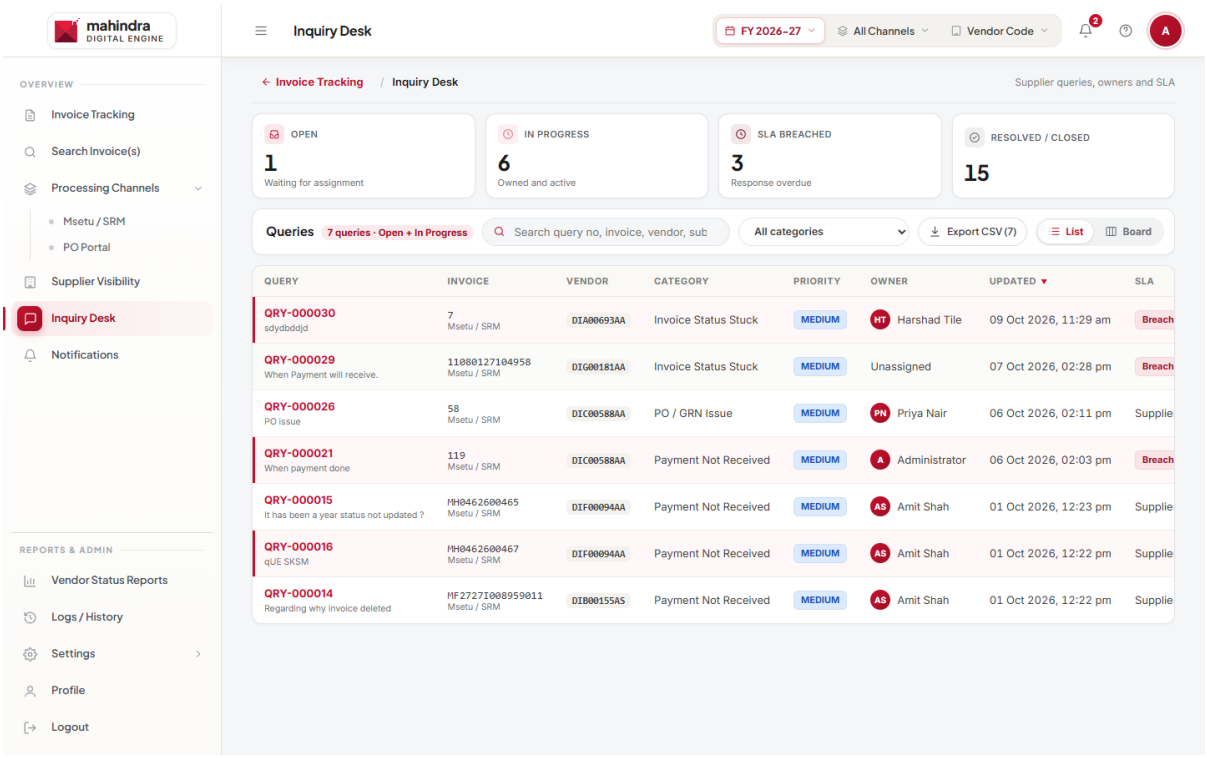

Figure 8: Inquiry Desk

> **Note:** Channel Leads see and assign all queries in their channel. Assignees see and answer the queries assigned to them.

11. Supplier Management

Settings › **Supplier Management** lets you give suppliers access to the portal. You need the "Manage suppliers" permission.

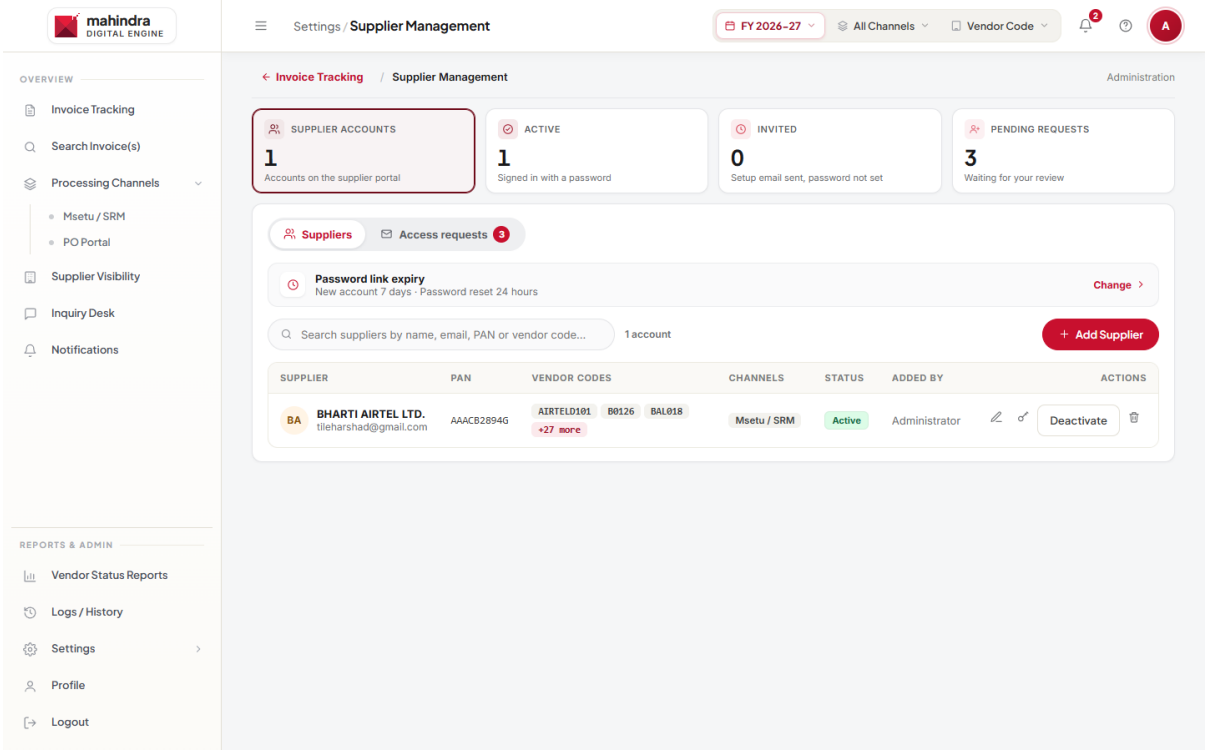

Figure 9: Supplier Management

11.1 Review an access request

A supplier can ask for an account from the sign-in page, or ask to add or remove vendor codes from their profile. You get a notification.

1. Open the **Access requests** tab. Requests waiting for you show **Pending**.
2. Click **Review**. Check **Match with invoice data**: each vendor code shows **Found** or **Not found**, with the supplier name and PAN in our data.
3. Tick the vendor codes to give.
4. Click **Approve & send setup email** (new account) or **Apply change** (code change). The supplier receives an email.
5. To refuse, click **Reject…**, pick a reason (for example "Details don't match our records"), add a note and click **Reject and email supplier**.

> **Note:** Admins can change any code. If another team has already approved the request, you see "Already approved by … Use Edit supplier to add your codes."

11.2 Add or manage a supplier

- **Add Supplier**: search the supplier name, PAN or vendor code, enter their email, tick the vendor codes and click **Create supplier**. A setup email is sent.
- Row icons: **Edit supplier details**, **Send setup email**, **Send password reset email**, **Delete supplier**.
- **Activate** / **Deactivate** turns a supplier's sign-in on or off.

12. Settings (Admin)

12.1 Integration Settings

Shows the health of data connections. Under **Portal Availability** an Admin can switch each portal on or off (Msetu / SRM, PO Portal, MFOX Portal). A switched-off portal cannot be used for sign-in.

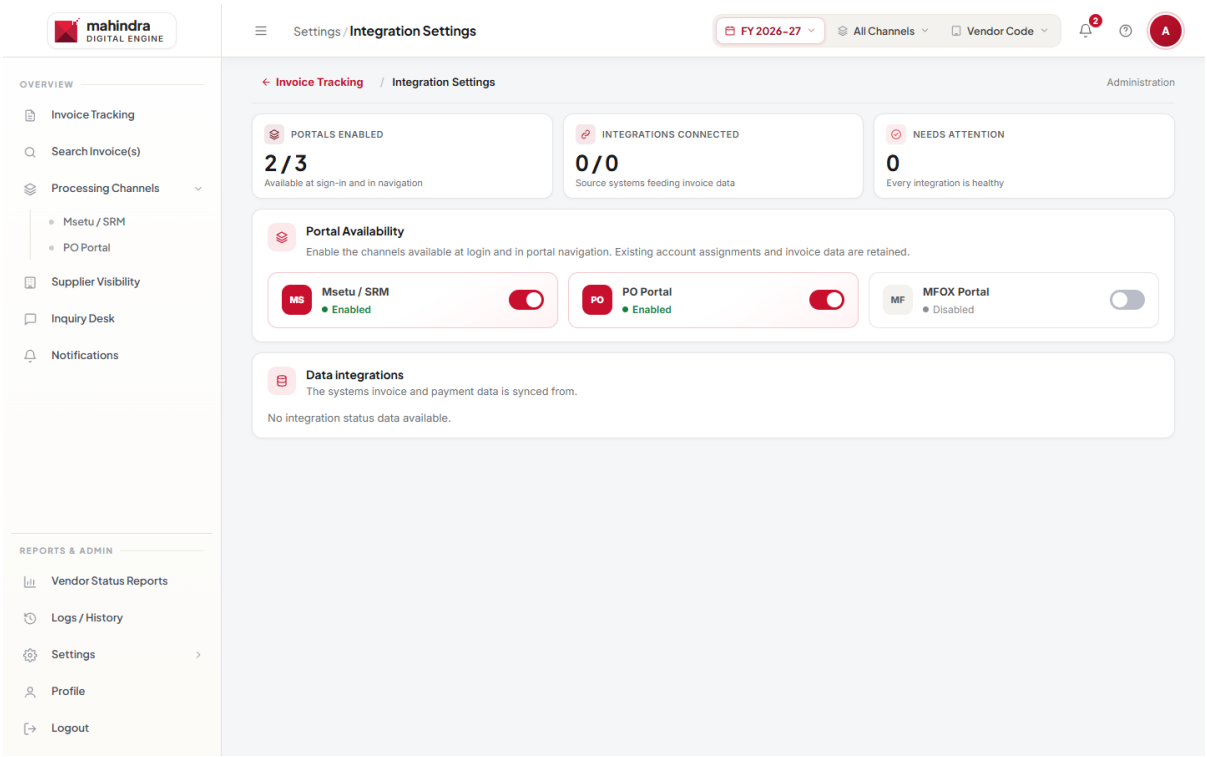

Figure 10: Integration Settings

12.2 User Management

1. Click **Add User**. Enter **Full Name** and **Email**, choose the **Application Role**, the **Ticket Role** (Inquiry Desk access) and the **Authorized Channel**.
2. Click **Create User & Generate Link**. The user receives a Welcome email with a Set Your Password link.
3. Use the row icons to **Edit user** (including Active / Inactive status), **Send account setup or password reset email**, or **Remove User**.

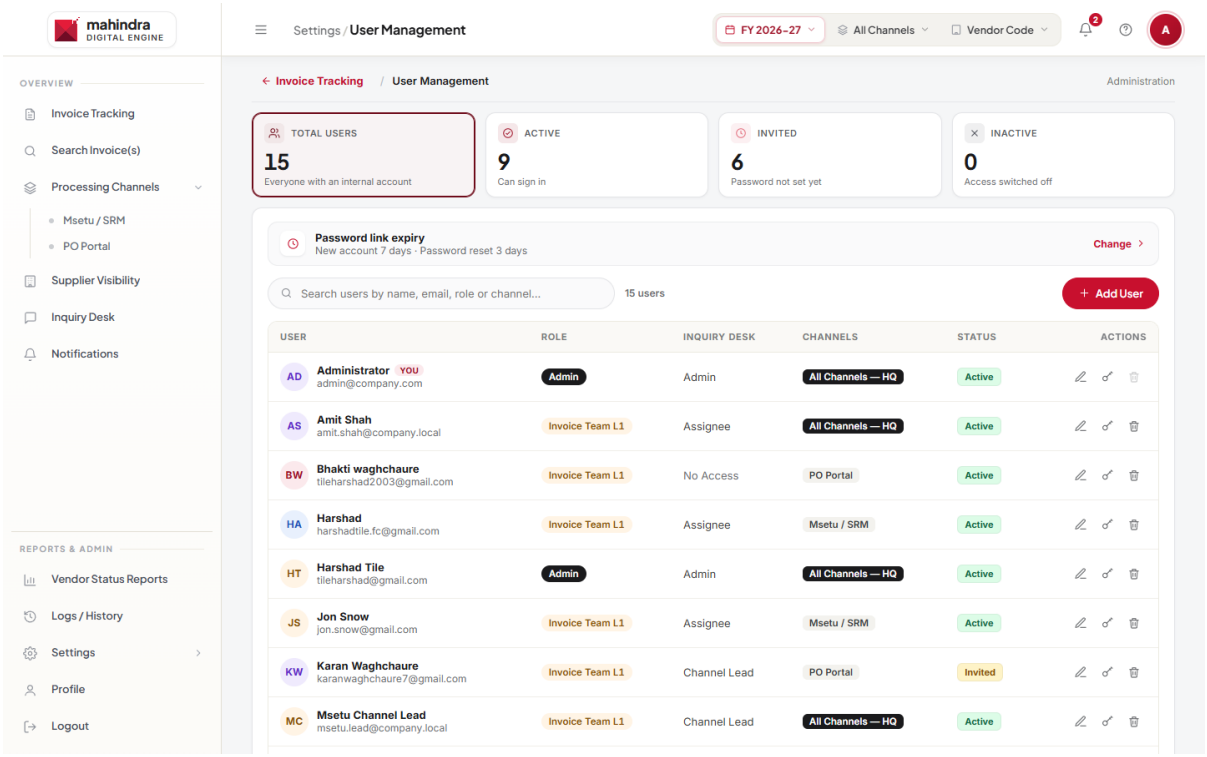

Figure 11: User Management

12.3 Roles & Permissions

A table of roles and permissions. Tick or untick a box to allow or remove a permission. Use **New role** to create a role and **Edit roles** to rename or delete one (users of a deleted role are moved to another role you choose).

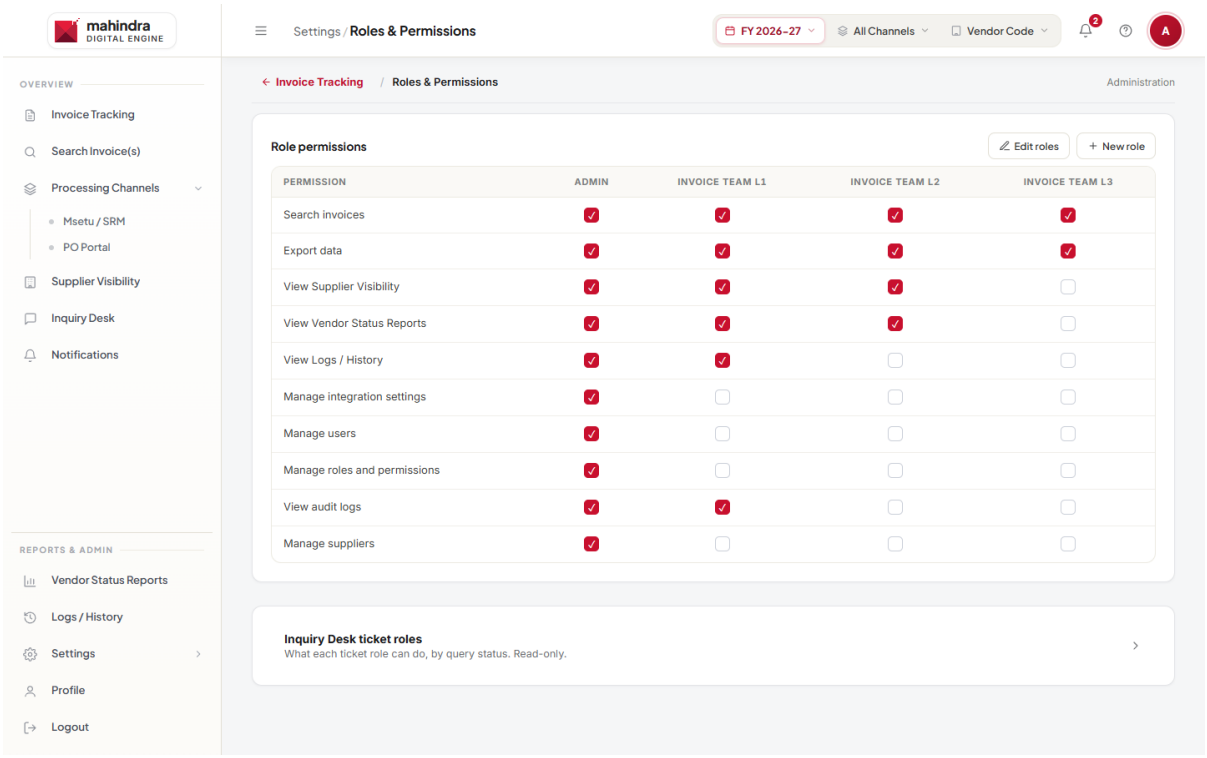

Figure 12: Roles & Permissions

12.4 Audit Logs

A record of sign-ins, failed sign-ins and changes made in the app, with search and event-type filters.

13. Notifications, Profile and Logout

- **Notifications**: updates on queries and supplier requests. Click **Mark all read** to clear the count. Use **All** / **Unread** and the search box.
- **Profile**: your name, email, role and portal access.
- **Logout**: click **Logout** and confirm **Log Out**. Always log out on a shared computer.

14. Invoice status meanings

Status	What it means
Initial	Invoice recorded; not yet uploaded.
Push to PO Portal	Passed from Msetu / SRM to PO Portal for processing.
Invoice Uploaded	Invoice uploaded by the supplier.
Pending for Approval	Waiting for the approver.
Action Required	The approver has asked for more information.
Level Approved	Approved at one level; more approvals pending.
Approved	Approved by the business.
Miro Booked	Booked in SAP (MIRO); waiting for payment.
Paid	Payment cleared; UTR number available.
Rejected	Rejected; the rejection reason is shown with the invoice.
Entry Deleted / Deleted	Removed from processing.

15. Roles and what they can do (default)

Role	Default access
Invoice Team L1	Dashboard, Search invoices, Export data.
Invoice Team L2	L1 + Manage suppliers, Vendor Status Reports, Logs / History.
Invoice Team L3	L2 + Audit logs, Supplier Visibility.
Admin	Everything, including Settings (integrations, users, roles).

Admins can change these permissions in Settings › Roles & Permissions, so your access may differ.

Reports, Logs / History, Supplier Visibility and the other Settings pages are available only when signed in to **All channels (HQ)**.

16. Common messages and what to do

Message	What to do
Invalid email or password.	Check your email and password. Use Forgot password? if needed.
This account hasn't been activated yet…	Use the Set Your Password link from your Welcome email, or ask an Admin for a new one.
This account has been deactivated. Contact an administrator.	Ask an Admin to activate your account.
This account can only sign in to its assigned portal.	Choose your own portal in Portal / Team.
This portal is currently disabled. Contact your administrator.	The portal has been switched off by an Admin.
This reset link is invalid or has expired. Request a new one.	Use Forgot password? again and use the newest email.
Unable to load portal options. Refresh the page to try again.	Refresh the page. If it continues, contact support.
No invoices match	Clear a filter or widen the date range. Check the FY and Vendor Code filters in the top bar.
UTR "Not yet visible"	The payment reference has not arrived yet. Check again later.

Need help? Use **Contact Us** at the top of the sign-in page to email the helpdesk.
